## FLIGHT ZONE<sup>®</sup>

Designed for heavy travel, rugged use, Odyssey's Flight Zone™ series of road cases are ATA certified, constructed of premium plywood and heavy-duty steel hardware.

## FLIGHT READY

For everyday, mobile applications, Odyssey's Flight Ready™ series of road cases are constructed of multi-layered plywood and standard steel hardware.

## STREAMLINE

Incredibly sleek and reinforced with stitched EVA molded shells, our Streamline™ bags are made of thick eggshell foam interiors, and embossed corners. Designed and constructed with high-grade material for strong durability, lightweight enough to ensure secure mobility. Odyssey's Streamline™ series of carrying bags feature the perfect fit.

## REMIXMK2

Odyssey's Remix MK2™ Series of bags are ideal for the multi-gear remixer to accommodate all their digital essentials, from controllers and laptops, to tablets, cables, headphones, etc.

## G Series

Revolutionizing the industry since its debut, Odyssey's Glide Style™ series of cases features its patented built-in Glide Style™ Platform uniquely designed to accommodate performance accessories.

## FLIGHT FX

Building on the legacy of Odyssey's Flight Zone™ cases, the Flight FX™ series creatively integrates multi-color LED panels embedded within the case walls for added flair for a DJ at center stage.

## BLACK KROM

Building on the original Odyssey KROM™ series of carrying cases, the Black KROM™ series includes a Black finish, octagon steel corners for added strength.

## KROM

Odyssey's original KROM™ series of carrying cases set the standard for storing and transporting vinyl, CDs and more with its sleek all aluminum panels and chrome plated steel hardware.

## Remixer Series

With the evolution of the performing DJs, Odyssey's Remixer™ series of cases and coffins features a full-length Glide Style™ platform to accommodate any and every gear configuration.

## GSA

Odyssey's Glide Support Angled technology features a highly adjustable platform, providing an enhanced performance application with superior gear visualization and product application reach.

## CARPET

Proudly Made in the USA, Odyssey's product carpeting process uses a unique dual-nail staple system, supported by industrial wood glue and premium drywall screws, for the best carpet construction in the industry.

## VULCAN SERIES

Odyssey's Vulcan series of injection-molded cases feature a polymer plastic material that is water-tight, dust-proof and impact resistant and either a custom foam lined interior or diced-foam.

## REDLINE SERIES

Designed for today's active DJ, Remixer, Producer, Odyssey's Redline™ series of bags combines fit and function with creative applications for optimal protection.

## Black Label Series

The originators of sleek, all-black patented cases, Odyssey's Patented Black Label™ Series of cases is the industry standard for high quality, all-black protective cases for all applications.

## DESIGNER DJ SERIES

Odyssey's Designer series of cases offers a unique twist on its Flight Ready™ cases with colorful options, from Blue to Red and beyond.

## Scrim Werks

Create clean and dramatic lighting effects with Odyssey's Scrim Werks™ series of decorative panels. Constructed of light-weight but durable stretch-fabric for diverse applications.

# NEED CUSTOM U.S.A MADE CASES? WE'RE YOUR ANSWER!

## MOVING HEAD FIXTURES

Designed and built to transport medium to large, dual or quad fixtures for name brands such as ADJ, Elation, Chauvet and High End Systems, just to name a few. We build cases with or without extra compartments. Standard specs include 3/8" ply construction, fully foam and carpet lined interiors, removable lids, and 4" heavy-duty casters.

## TECH BOXES

Custom workbox with plenty of room to work around. Top lid opens up to a smooth work area. Back lid comes off and converts into a table top lid. Front lid hinges open exposing area for spray cans, tape and any small miscellaneous items along with a flip up top section to give you even more table space. There are plenty of drawers to accommodate all your needs.

## MOTORIZED OR PISTON ASSIST MONITORS

LED monitor case with motorized electronic lift with 4" casters. Top lid comes completely off to access lift and optional storage drawer on the base for accessories.

## TRUCK PACK UTILITY TOURING CASE

### CTP020W

Use our truck pack utility touring case for a fast and efficient use of space. Its great for easy loading in and out of venues.

Made to order

# serato

The power of music

## SERATO DJ PRO

Upgrades Serato Lite software to Serato Pro version; unlocks Pro features with ability to use Serato expansions and more.

## SERATO PLAY

Serato offline player; use Serato without controller; perfect backup rig.

## SERATO VIDEO

Adds video and karaoke capabilities to Serato DJ PRO; manipulate video playback, video effects and custom text and images to your video mix.

## SERATO FX KIT

Complete set of over 45 iZotope effects (Back Pack, Chip Pack, Jet Pack and Wolf Pack).

## SERATO FLIP

Record cue point actions to create custom tracks edits; record your edits, automation, cue point and censor actions right to the track; retrigger up to 6 edits per track at will.

## SERATO PITCH 'N TIME DJ

Industry standard time-stretching and pitch-shifting for Serato DJ PRO; key shifting and key lock that allows you to speed up or slow down your track to extreme tempo values while maintaining its key perfectly.

## SERATO DVS

Add turntables or CDJ control to selected Serato gear; expand your DJ controller setup to use turntables with Serato vinyl or CDs.

## SERATO DJ TOOL KIT

3-Pack Serato Expansion, includes Serato Flip, Serato Pitch 'n Time and Serato FX Kit.

## SERATO DJ CLUB KIT

Serato software interface, includes Serato DJ and Serato DVS for selected DJ mixers.

## SERATO DJ SUITE

Complete Serato software! All Serato add-ons and expansion packs in one. (Excludes iOS products.)

## SERATO SAMPLE

Powerful and intuitive sample plugin for producers that allows you to quickly find, chop, key shift and time-stretch samples; powered by Pitch 'n Time.

## SERATO PITCH 'N TIME PRO

High quality time-stretching and pitch-shifting for professionals, and pitch-shifting AudioSuite software plug-in for the Pro Tools platform.

## SERATO PITCH 'N TIME LE

High quality time-stretching and pitch-shifting for professionals, and pitch-shifting software plug-in for Pro Tools and Logic Pro platforms.

serato DJ Suite

serato  
The power of music

# SERATO'S SOFTWARE

Products are available in two (2) different options:

There is a variety of very cool and powerful software programs to choose from in both options, providing the ultimate creativity and versatility to manipulate your music, while others add special effects and another that allows play, record and edit of music videos. And there is yet another called SUITE, which combines the entire Serato list of available programs all-in-one.

## Scratch Card (SC)

The “**Scratch Card**” (SC) is a physical item that looks just like an ordinary credit card and is sold by authorized Serato dealers. It has a special “Access Code” on it, and you, as the customer, would then visit Serato’s website and type the code into a field, and the program will automatically load onto your computer.

## Digital Download (DL)

The “**Download License**” (DL) is not a physical product like the card. It is an immediate download, which means when you make your purchase of it from the Serato dealer, the dealer then contacts us (Odyssey) and we email the dealer a PDF (that contains the Access Code), and then, the dealer emails it to you and view the Access Code (just like the Card). And also just like when the Card is purchased, you would then go to Serato’s site to type in the code to receive the program. This entire transaction is done electronically. You do not even have to visit the dealer in person to purchase the product.

**Either way, you are purchasing the world’s greatest music software programs!**

# ULTIMATE LP & CD TREATMENT

## IT'S WHAT EVERY TURNTABLE DJ NEEDS

Gruv-Glide is a dry record treatment that actually improves the sound (fidelity) of the record. Prior to its development, even the highest quality cartridge could not produce the maximum available sound reproduction from the record. Gruv-Glide not only increases the fidelity of the record, but also reduces surface noise, removes static, and cleans the record. As a result of the treatment, the treated record and cartridge stylus will last longer due to the increased tracking ability and reduced friction. One application last for an indefinite period of time.

## RACK BAGS

### 3U RACK BAG WITH 8 INCH INTERIOR DEPTH

BR308  
• 3U

Odyssey rack bags allow for both front and rear access without removing the interior shell.

Our unique rack bags allow you to remove the interior hard shell from the padded bag so you can stack racks firmly on top of each other without the bag getting in the way! All rack bags include a shoulder strap along with a small bag of rack screws and washers.

The black carpet covered interior shell is studio furniture friendly - no rubber feet or metal edges to damage or mark surfaces.

Approx. Ext. Dim  
• 22"x 7"x 10"  
• 10 lbs.

### 3U RACK BAG WITH 16 INCH INTERIOR DEPTH
